

Bovis Lend Lease Continental Europe, Middle East and Africa

Services: Project Management

Bovis Lend Lease Continental Europe, Middle East and Africa provides its expertise through a wide range of fee based services across a wide range of construction sectors tailored to meet the specific requirements of our client, the project and the geographic location of the particular development.

Providing **Project Management** services gives Bovis Lend Lease the maximum opportunity to positively influence the outcome of a client's project by applying experience and knowledge from the earliest stages of the project

Project Management provides the client with a team of professionals experienced in all aspects of the construction industry.

Employed by the client, the team acts as an extension of the client's organisation to manage the design and construction of the project. The client can assist in the appointment of design consultants to produce the design and a general contractor to carry out the construction.

The Bovis Lend Lease Project Management team will co-ordinate the activities of the design consultants and contractor and acts as the single point of contact between them and the client.

Bovis Lend Lease has been operating in Continental Europe, Middle East and Africa since 1970. Our in-depth knowledge of local markets, procurement systems and regulations together with our global resources enable us to deliver the most complex of projects from concept through to completion focusing on value add services across a wide range of sectors with a strong commitment to Health and Safety and the Environment.
