New University Sport Complex

Bovis Lend Lease was appointed by the University of Europe – CEES to build a new sport complex on the existing campus located on the outskirts of Madrid. This project was finished in October 2002. Bovis Lend Lease through its GMP contract delivered successfully the project on time and within budget, the time schedule was very important because the University started its lessons on October. This new Sport Complex provides UEM new high tech sport infrastructures:

The new UEM Sport Complex has a surface area superior to 8.000 m2 and a built up area of 15.000m2. The project consists of 3 main areas, all of which are connected by the reception area and cafeteria.

- Sport Stadium.
- Indoor Swimming Pool .
- Fitness area
- Martial Arts areas
- Gymnasium
- Aerobic area
- 2 Squash courts
- Bike rooms with corresponding locker rooms and common areas
- Lecture rooms for INEF students
- Labs
- Cafeteria
- access roads and landscaping
